Popis produktu

The Lavender Frankincense Oud Bakhoor incense blend by Jungle Way is hand-mixed in the renowned region of Salalah, Sultanate of Oman. Its main ingredient is royal-quality frankincense, complemented by larger pieces of the finest and rarest wood available on the global market—premium agarwood from Saudi Arabia. The blend is richly infused with Omani perfumes and essential oils. This intoxicating combination of ingredients comes from a secret recipe passed down through generations of an Omani family, dedicated to creating exclusive incense blends. Unlike other incenses, this one doesn't release a single specific scent when burned; instead, it reveals a wide range of gradually unfolding components with strongly stimulating effects. Let yourself be carried away by the harmonizing scent of lavender on a balsamic background of rare woods and resins. The blend purifies and disinfects the air, eliminates negative energy from the space and its inhabitants, promotes a sense of abundance, strengthens creativity, and enhances the drive to fulfill life's dreams. Beyond its first-class aroma, it's also popular for its ability to repel insects.

- Exclusive incense blend
- Lavender Frankincense Oud Bakhoor - 20g
- Highest quality on the market
- One pack provides up to 7 uses
- Created in Oman
